Farmers should eat more oatmeal.

Although the farmer of today is able to buy almost anything he wants to eat or to eat he isn't paying enough attention to food values when it comes to his own table.

If he has been watching the extensive researches and experiments on the question of the best human food for muscle and brain he will heed the advice from all sides to "eat more Quaker Oats."

Quaker Oats is mentioned because it is recognized in this country and Europe as the best of all oatmeals. Feeding farm hands on Quaker Oats means getting more work out of them than if you feed them on anything else.

For home use it is packed in regular 10c packages, and in large size family packages at 25c.

Bronchial Tubes All Stuffed Up.

"While a resident of Washington, D. C., I suffered continually and intensely with a bronchial trouble that was simply terrible to endure. I would have sworn that I could hardly breathe, I would choke up, fill up in my throat and bronchial tubes, and the doctoring that I did and the remedies used were of no benefit to me whatever. I heard about Booth's Hyomei being so beneficial in catarrhal and bronchial affections and procured an outfit. I received relief from the first by its use. I continued with it and received a cure. It is about two years since I have suffered at all from my former trouble. Mrs. R. L. Pannell, 404 N. Augusta Street, Stanton, Va., March 26, 1909.

Christian Endeavor Convention.

The annual convention of the Maine State Christian Endeavor society will be held in the Pine street Congregational church, Lewiston, May 31 to June 2, and an unusually good programme has been arranged. Among the speakers will be Rev. Francis E. Clark, D. D., president of the society; William P. Shaw, secretary; Dr. O. P. Gifford of Boston, Rev. Jesse Hill of Portland, and Rev. George W. Hinckley, superintendent of the Good Will farm. The quiet hour service will be conducted by Rev. Joshua M. Frost of Waterville.

The ice in the Rangeley lakes will, according to present indications, break up three weeks earlier than last year, and a week earlier than any season during the 30 years that records have been kept. The lakes, it is believed by guides and camp owners who have spent their lives in this region, will be open to fishing about April 20, though a heavy wind might cause the ice to break up even earlier than that. Last year the ice broke up May 12, and the earliest record is that of 1903, when the lakes cleared April 29. They have twice cleared on April 30, but it has usually been in the second week in May when the ice has gone out and fishing has begun. Anglers have engaged accommodations for the early fishing season at the various resorts.

Two new states will doubtless be created by act of Congress this year—Arizona and New Mexico.

Bicycles and autos are appearing on the streets and the silent movements of either, are liable to surprise the pedestrian at any moment. One needs to have eyes turned in all directions these days, especially in crossing a street.

The right of them to the left of them, in front of them and in the rear the bicyclist or autoist comes tearing along at a neck breaking speed and lucky is the pedestrian who comes out of the labyrinth of danger safely. One might think, verily, the foot has no rights which anybody with a "machine" is bound to respect.

April is giving us real March weather, with cold winds and snow flurries. Tuesday morning of this week it began to snow with the indication for a while of a hard snow storm, but it was soon over, the clouds were away and revealed snow-capped mountains around us, but by the middle of the afternoon the white covering had disappeared, but the wind though light had an icy breath quite strange in contrast to the very warm days of March. The mud in the roads is well dried up and in places about the village the dust with the slightest invitation by a little breeze.

Norway Advertiser Fifty-nine Years Ago.

We have before us a copy of the Norway ADVERTISER of Thursday, September 25, 1851, new series, volume 1, number 9. Evidently this series of paper had been printed nine weeks.

Its editor and publisher was Moses B. Bartlett, price \$2.00 per year. In clubs of ten, \$1.25, cash in advance; in clubs of twenty-five, \$1.00 even in advance. It is a seven-column folio, making 28 columns all told and is excellently printed on good quality paper.

This particular copy of the ADVERTISER was handed us by Judge William F. Jones of this town. It was found in a trunk of keepsakes at the family home in Boston when they were recently breaking up housekeeping. Undoubtedly it had been saved on account of the description of the big fire of '51 in which quite a portion of the village was destroyed and it was from this fire that the fire department dates its history. The advent of the Oxford Bear Head Tab was the immediate result of the fire.

Among the losers were the following: Anthony Beusit, all things included, also stable with stock and carriages. Loss \$3,000.

A. C. Dennison, store and outbuildings occupied by Dennison & Kendall. Loss of Dennison & Kendall stock, 6,000.

Joseph Shackley, house \$500. Benja-

Often The Kidneys Are

Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Peruna Secrets
You Should Know

Golden Seal
Scal
Root.

Golden Seal, the root of the above
plant, is a very useful medicine. Many
people gather it in our rich woodlands
during the summer. Few people know
how valuable it is in dyspepsia, catarrh,
and as a general tonic.

Many thousands of pounds of this root are
used each year in the famous catarrh
remedy, Peruna. This fact explains why
everybody uses Peruna for catarrh.

min Tucker, house and outbuildings,

Captain Henry Russ, buildings \$1,500.

It says that E. C. Jackson, a boarder at
the hotel, lost a valuable horse in the
fire; also value containing papers re-
presenting several hundred dollars in
value.

A man from Lovell lost two horses in
the fire. Name is not given. Also
Messrs. Longley & Co. employed in the
express service.

Messrs. Longley & Co. employed in the
express service.

"This fire was universally supposed to
have been the work of an incendiary.
Some arrests on suspicion have been
made and the matter is under investi-
gation." Further on in the same paper
we find that they lacked sufficient evi-
dence to hold the parties and they
were allowed to go free. Their names
were not given. The house of Asa Dan-
forth and Mark P. Smith on the opposite
side of the street caught several times.

The paper extends thanks to the peo-
ple of South Paris and vicinity for their
assistance and zeal in stopping the
spread of the fire.

The paper announces the marriage in
Rumford of William Wirt Virgin and
Sarah H. Cole, both of Norway. Mrs.
Virgin at the present time is living in
Portland.

Among the advertisers as lawyers ap-
pear the names of M. B. Bartlett and
William W. Virgin. The physicians are
represented by J. W. B. Welome and
Jesse Howe. The Elm House and Rail-
road House were the hotels. T. H.
Kelley was the tailor; Noyes & Beals,
booksellers and bookbinders; William
E. Goodenough, insurance agent; C. L.
Francis, druggist and apothecary; Wil-
liam M. Cushman, watches, jewelry
and fancy goods; and Ebenezer
Kelley, painter and glazier and paper
hanger.

Dennison & Kendall take the largest
amount of space in telling of their
general stock of goods. Goodwin, Noyes
& Bannard, cabinet furniture, occupy a
good sized space. Brown & Co. tell of
their foundry and stoves at Steep Falls.
John Beal sells at auction "the so-called
Dolley place situated on the East side
of the pond in the Bennett neighbor-
hood four miles from Norway village."

Ready made clothing is represented by
J. H. Merrill. Charles Billings of
Waterford has sold his son, Henry S.
Billings, his time during his minority.

The signature was witnessed by Sam-
uel Kimball, Simon Walton and C.
B. Coffin have a jewelry establishment
opposite the Elm House. A stray buck
has entered the enclosure or yard of
George W. Everett and he advertises
same.

J. H. Hall notifies the people of the
two villages that he hangs door bells and
manufactures door plates at short notice,
"gold, silver and painted letters."

"The undersigned has been appointed
agent for the town of Norway under the
late law to sell out for cash all real and
medicinal purposes to all persons ex-
cepting strangers. These are required
to bring a certificate from a respectable
physician or one of the selectmen of the
town." (Signed) "James Crockett."

Brown & Co. of Steep Falls have a
large quantity of iron shafting for sale.
William Goodenough has a brick store to
let, formerly occupied by himself. Wil-
liam K. Kimball was clerk of courts of
Oxford County at this time.

Considerable space is given in the ad-
vertising columns regarding the ability
of M. B. Bartlett, the evidently proprie-
tor of the paper, to get government
pensions for people who are deserving
them. He gives a list of the names of
pensioners for whom he has gotten
pensions in Albany, Newry, Oxford,
Greenwood, Sweden, Mexico and Rox-
bury. It does not say whether these
were the pensioners of the 1812 war or
the Mexican war of 1845, probably the
latter.

The new law regarding advertising
probate matter is published. This law
was approved by the legislature June
27, 1880, and allows the one having
business before the judge of probate to
designate the paper in which the legal
advertising shall appear unless the judge
should be of the opinion that the paper
was unsuitable from its want of cir-
culation or other substantial reason. (The
same law is now on the statutes.) The
editor then says, "We trust that the
judge of probate will cheerfully comply
with this law and not form exceptions to
those in the rest of the state. We have
no doubt that any request to publish
will be readily granted." Evidently, the
probate business was going into another
paper at that time, as we do not see any-
thing of it in the paper that we have.

"The soldiers of the war of 1812 and
the Indian wars since 1790, their widows
and minors who are entitled to lands
under the act of September 28, 1850,
could have their claims presented by
M. B. Bartlett, counselor and attorney
at law, also commissioner for New
Hampshire." Evidently, Editor Bart-
lett believed in advertising and he sound-
ed his trumpet so all could hear him.

Spitting Laws.

Anti-spitting ordinances, laws and regu-
lations in more than five-eighths of the
cities and towns of the country are not
enforced as they should be, alleges the
National Association for the Study and
Prevention of Tuberculosis in a bulletin.

On account of the fact that National
Tuberculosis Sunday will be observed
on April 24, the National Association is
calling the attention of clergymen in all
parts of the country to the advisability
of bringing before their congregations
the necessity for better enforcement of
the anti-spitting laws.

If you are to have the Three-Times-a-
Week World and Advertiser send
\$2.50. It pays for a year for both
papers.
